Austiner year. But there'll be empty

Stockings, too. That makes me blue! Mr inger rile

In haby eyest I White I had A lunch of strings On them who rame

The cost of things. I'd yank them so I'd shake 'em free From all the wealth They've stole, by most

They are, because They'd rob the kids

Of Santa Claus! Make me so hot-

Turkey gut.

AN INSTRUCTIVE LECTURE

Effects of Alcoh | Upon the Human System.

was delivered by Dr. Milia t. Moosy efore the West Briefstille Sundays school and is published in the Herato

at the sequest of the W. C. T. U.; "In the few minutes admitted ma : can not hope to go into detail in the consideration of the subject before us at this hour, but if I shall be able to elate sufficient facts which shall the effects of alconol upon the system and arome your latest teneral pposition to its inductive I shall feet the time well spent.

Broadly spenkins, we may may that alcohol is an irritant and potern to the entire economy. Briefly, lot us consider some of the effects upon the different organs of the body. When a glass of alcohol is swallowed the mucous membrane is irritated, burned and contracted. This begins in the mouth and extends through the allmentary tract. There is no conversion nor spitting up of this drug in the stomach or investings, but very quickly it is absorbed as such and taken to every part of the body where it can be found as pure alcohol.

The heart best is quickened, small blood vessels over the surface of the body become dilated, causing the surface to appear rosy and full warm The brain and nervous system are stiulated; thoughts come in quicker succession and ideas are more readily

## Cole's Hot Blast

### A Stove That is Imitated-Get the Original.

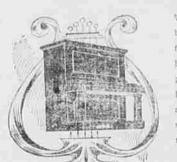

imitations of the original Hot Blast are many. None of them have the absolutely air thirt and sub-tight construction throughout which Coles Hot Blast has by reason of its numerous patents. A patented steel colar connects the elbow diaft to the stave body and cannot open by action of the fiercest heat. The patented compound hings on the lower draft cannot warp, and the ash door closes sitish by his own weight. The patented smoke most feed door prevents smoke, dust or gast escaping when fuel is put in the stave. Perfect results, therefore, from soft coal. The heavy fire box protects the politic where other stoves burn out first, and lasu es great durability. Remember imitations lack the special features because these are fully patented and protected. All imitations soon open up seams and cracks which make them fuel enters rather than fuel savers.

The name "COLE'S HOT BLAST FROM CHICAGO" with be found on the feed door of each stove. Be sure that you get the "ORIGINAL HOT BLAST." The most economical stove in the world for hard coal, soft coal, wood or cobs. Requires no change for hard coal, wood or soft coal.
